#### Warranty

1. iProfessionals is an 'Out of Warranty Repairer'. Opening your device by anyone other than the manufacturer may void your warranty. Please check your current warranty and insurance and take that into consideration prior to repair.
2. iProfessionals Parts Warranty: 6 months. Water damage, physical breakage, repair by another company and opening of the device voids iProfessionals Warranty. This includes water or physical damage occurring prior to the iProfessionals repair.
3. If internal or external damage is found during the repair that is not repairable by us, or that complicates the repair process you will be contacted to discuss your options. No warranty is given for jail-broken devices.
4. Your device may have damage that is undetectable and therefore unrepairable by iProfessionals. In the case of a device becoming inoperable, the device will be returned to the customer in the condition at the completion of repair with no compensation. Please note that the device may not function and be unusable in this state. The customer accepts this risk. The device may need to be referred to the manufacturer at the customers' expense. The customer will be charged for parts and labour as per the customers quote.
5. The customer is fully responsible for backing up their device and no liability is taken for any data lost.
6. Your device will be released to the holder of this Repair Form only unless prior notification is given.
